

## The world's thinnest & smallest full power digital portable radio

# X1e

Hytera X1e Digital Portable Radio complies fully with ETSI open standard, emerges as the world's smallest full power DMR radio. Perfect combination of structural rigidity, versatile functionalities, and refined design; secure communication ensured by AES encryption algorithm & 256 digit dynamic encryption keys; convenient application development facilitated by built-in BT and USB port; and worry-free handling achieved by IP67 protection.

All comes with a surprisingly small size: 18mm (1100mAh Li-ion battery) thin.

X1e

## Innovative Design

### ① Ease of use

Easy to use with the rugged body as thin as 18mm, professional wireless headsets or collar microphone, palm controller and flexible antenna.

### ② IP67 compliance

Complies with IP67 requirements, withstanding up to 1m submersion for 30 minutes or more.

### ③ Rugged & reliable

Complies with MIL-STD-810 C/D/E/F/G standards and passes HALT (Highly Accelerated Life Test) .

Hytera X1e

## Features

### Advanced encryption

AES encryption algorithm & 256 digit dynamic encryption keys ensures secure communication.

### Supports Hytera BT accessories

The radio supports Hytera BT accessories: EHW02, BT earpiece; POA47, BT Ring PTT.

### Open USB interface

Open USB port facilitates secondary and application development.

### GPS positioning

The built-in GPS module supports GIS applications.

### Dual mode (analog & digital)

Dual modes (analog & digital) operation ensures a smooth analog-to-digital migration.

### Versatile voice calls

Versatile voice calls include individual call, group call and all-call.

### Vibration

Vibration alerts the reception of voice call and message.

### Rich signaling

Supports multiple advanced analog signaling, including HDC1200, DTMF, 2-Tone and 5-Tone, providing more expansion capacity.

### Software upgradable

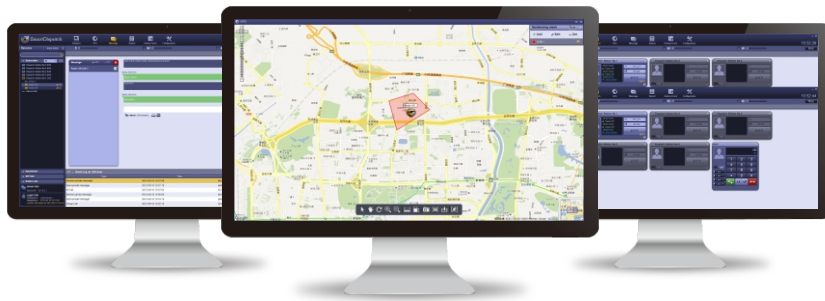

Upgrade software enables new features without buying a new radio; X1e could also be switched into MPT and DMR trunking modes with corresponding license applied in the same hardware.

## Work with Hytera smart dispatch system and Portable repeater to achieve flexible networking & dispatching

For mission critical users like special police, anti-drug/anti-smuggling officer, senior guard, senior executives, etc., only a professional terminal is not enough to accomplish tasks and ensure safety. This is where a complete communications solution is demanded.

### Hytera smart dispatch system

A digital dispatching system developed on the Hytera digital platform in compliance to ETSI DMR open standard, is designed for efficient communication, management and dispatching of professional users.

- **All types of voice calls**  
Hytera smart dispatch system supports all types of calls that meet your various dispatching operational needs, include private call, group call, all call. Every Hytera smart dispatch system dispatcher client console is able to dispatch up to 8 voice dispatching channels. Through these dispatching channels, Hytera smart dispatch system could receive all types of calls as well as trigger any type of call through user friendly and easy to operate user interface.
- **Voice recording & playback**  
All incoming calls and outgoing calls will be recorded in Hytera smart dispatch system server. This includes all types of DMR voice calls and PSTN interconnected calls. Users can retrieve recorded voice and playing back at any time. All recorded voices are easily can be searched through time, caller ID or callee ID.
- **Radio kill & radio revive**  
Hytera smart dispatch system is able to kill a radio unit remotely when the radio unit is under illegal usage or being stolen. The killed radio is able to power on but not able to perform transmitting or receiving. Hytera smart dispatch system is also able to activate a killed radio when necessary.
- **Real-time tracking**  
This feature allows Hytera smart dispatch system to track the location of any radio units in real-time. Users have an option to display the location route on the mapping. On critical missions, the dispatcher can send staff nearby for check and help when the route of a patroller halted.

### Portable repeater for flexible networking

Take the portable repeater to extend the coverage area, allow flexible networking and high mobility in tasks, which is especially helpful in tracking, body guarding and mobile dispatching.

### High-capacity Battery & Belt Charger:

BL1809, Li-ion Battery 1800mAh; CH04L01, Belt Charger. For users require long-time operation, a high-capacity battery with belt charger is undoubtedly the best match. The 1800mAh Li-ion battery of X1e enables it to work for up to 15 hours, and the belt charger further extends its operation time with convenient charging.

### Audio Accessories

EWN08, Wireless Earphone; EHW02, BT earpiece; POA47, BT Ring PTT. X1e has a variety of audio accessories for flexible use in actual environments.

## Target Customers

Mission critical users:  
special police, anti-drug/anti-smuggling officer, senior guard,  
senior executives.
